THE ARTEMIS WOMEN IN ACTION FILM FESTIVAL 2017

April 20, 2017

Greetings to all our Filmmakers, Fans, Volunteers, Friends, Partners, & Sponsors:

In 2015 we set out on a mission. We wanted to show the world that physically empowered women in film were not only positive, but popular. We wanted people to see a stronger image of women on screen, one that reflected the reality of the women that we knew and admired. We started a revolution and movement for powerful women. We've opened some eyes, but our mission still continues.

Welcome to the third annual Artemis Women In Action Film Festival!

It is our honor and privilege to present another year of amazing features, shorts and documentaries about women in action as well as celebrate some of the incredible women and men who have made films of this sort possible. You will see films that showcase and highlight every form of action woman, from Rosie the Riveters to rock climbers, scientists, stuntwomen, and badass women in narrative action.

Once again, we'll offer panels featuring the many active roles women play in our culture and give you a chance to see those women close-up: Sci-fi, stuntwomen, warrior women, film finance and women in VR. You'll have a chance to learn about and get to know women in all of these areas.

Lastly, we're offering a glimpse of the future at this year's festival: VR (Virtual Reality). Along with our partner, VR pioneers Hyperator VR, and with one of our sponsors, the company that single-handedly launched the VR next wave, Oculus, we will offer a state of the art VR lounge over the weekend that will showcase the finest in female-centric 360 VR films and CG content.

Yes, we're showing you the future and the future is female.

Thank you for coming and we'd like to take this moment to thank everyone who gave so deeply of themselves to make this festival possible: volunteers, fans, backers and sponsors. You are the real heroes of this festival. We are incredibly grateful for all that you've done to help us create a third year of The Artemis Women In Action Film Festival.

Enjoy the weekend of fierce and fearless women in film!

Got Distribution?

- If not, how do you navigate the distribution "minefield"?
- Do you know what the landmines are?
- Do you know the strategies necessary for most movies & documentaries to have successful distribution today?

With Jerome Courshon's powerful 3-Day Program, you will learn this and more.

"I can't say enough about Jerome's Program! It's fun, sincere, candid and informed. You can't put a price on the information he teaches -- but avoiding the pitfalls of distribution could save you north of \$50,000!"

-- Kerry David, Producer of 7 Movies including "Agent Cody Banks," "Like Dandelion Dust," "My Date With Drew"

"GREAT Program! What makes Jerome's material so powerful is his personal experiences in the trenches. He fills a gap in most filmmakers' education and provides a roadmap for the often murky and ever-changing world of distribution. His Program is important, valuable, and one that filmmakers of all levels can benefit from in getting their movies out there."

-- Doug Atchison, Director/Writer, "Akeelah and the Bee"
